News from the Office of

ADAM BELLO

MONROE COUNTY EXECUTIVE

Hospital	Total Beds	Medicine/ Surgery and ICU Beds	Surge Phase 1	Surge Phase 2	Surge Phase 3	Total Surge Capacity	Percent Increase
Strong Memorial Hospital	886	690	197	231	262	690	100%
Highland Hospital	261	231	80	52	99	231	100%
F.F. Thompson Hospital	85	75	33	37	20	90	120%
Noyes Hospital	37	31	15	20	NA	35	113%
Jones Memorial Hospital	25	20	NA	13	15	28	140%
St. James Hospital	19	19	NA	17	8	25	132%
Total	1,313	1,066	325	370	404	1,099	103%

Total beds: Licensed beds of any type currently in operation

Medicine/Surgery and ICU beds: Beds used for most inpatient, surgical, and intensive care; the baseline for surge capacity planning. Excludes beds for some specialized services such as NICU, maternity and psychiatry

Surge Phase 1: Inpatient bed space freed up by decrease in non-urgent surgeries and procedures

Surge Phase 2: Deploying additional patient care space in the hospital or ambulatory clinics (e.g., Sawgrass surgery center)

Surge Phase 3: Doubling up non-COVID patient rooms to create more inpatient space, converting non-clinical hospital space to support inpatient care by adding beds, staff and equipment

Hospital	Total Beds (licensed beds)	Medicine/ Surgery and ICU Beds	Surge Phase 1	Surge Phase 2	Surge Phase 3	Total Surge Capacity	Percent Increase
Rochester General Hospital	524	495	134	126	249	509	103%
Unity Hospital	351	222	98	153		251	113%
Clifton Springs Hospital & Clinic	25	25	10	28		38	152%
Newark Wayne Community Hospital	77	77	27	37	19	83	108%
United Memorial Medical Center	79	79	53	47		100	127%
Total	1056	898	322	391	268	981	109%

Total beds: Licensed beds of any type currently in operation

Medicine/Surgery and ICU beds: Beds used for inpatient, surgical, and intensive care; the baseline for surge capacity planning. Excludes beds for some specialized services such as behavioral health for RGH

Surge Phase 1: Inpatient bed space freed up by decrease in non-urgent surgeries and procedures

Surge Phase 2: Deploying additional patient care space in the hospital, overflow or ambulatory clinics

Surge Phase 3: Deployment by converting non-clinical hospital space to support inpatient care by adding beds, staff and equipment

Hospital System	Total Beds	Medicine/ Surgery and ICU Beds	Surge Phase 1	Surge Phase 2	Surge Phase 3	Total Surge Capacity	Percent Increase
URMC	1,313	1,066	325	370	404	1,099	103%
Rochester Regional	1056	898	322	391	268	981	109%
Community-Wide Total	2369	1964	647	761	672	2080	106%
